## MEMORANDUM

---

September 7, 2016

**TO:** Honorable Mayor and City Commissioners  
**VIA:** Kenneth Fields, City Manager  
**FROM:** Dorothy Ecklund, Finance Director  
**SUBJECT:** Ordinance 2016-18, Five-Year Capital Improvement Plan FY2016/17 - FY2020/21 – 1<sup>st</sup> Reading  
**SYNOPSIS:** The Commissioners will consider adopting the Five-Year Capital Improvement Plan for fiscal years 2016/17 through 2020/21.

### RECOMMENDATION

It is recommended that the City Commission approve after first reading Ordinance 2016-18 adopting the Five-Year Capital Improvement Plan for fiscal years 2016/17 through 2020/21.

### BACKGROUND

In accordance with section 6.05 of the City Charter, Ordinance 2016-18 adopts the proposed 5-year Capital Improvement Plan (CIP) for the period FY2016/17 through FY2020/21. Capital improvements and capital acquisitions proposed for Year 1 of the 5-Year plan are incorporated into the FY16'17 operating budget, as are appropriation of funding sources necessary to implement Year 1 of the plan.

The 5-Year CIP document includes all capital facility and infrastructure improvements which staff believes should be undertaken during the next five years and supporting information to explain the necessity for the improvements. In addition, the CIP includes all capital equipment proposed for acquisition during this period. Cost estimates, method of funding and time schedule for the proposed improvements and equipment acquisitions are identified in the document.

The proposed 5-Year CIP totals \$54,065,012 and includes \$200,000 in land acquisition, \$3,924,265 in building improvements/acquisitions, \$45,461,384 in infrastructure and recreation improvements, \$3,592,963 in equipment acquisition, and \$886,400 in other capital outlay. Schedule "C", within the 5-year CIP, provides a detail listing of each asset type.

Improvements and equipment needs for the next 5 years were submitted by department heads with a justification of necessity and a recommended time schedule for completion or acquisition. These requests were prioritized by the City Manager in view of the available funding resources and urgency of need.

### FISCAL IMPACT

Funding of the CIP will be accomplished through utilization of existing cash surpluses and current year operating revenues, future grants, private contributions, leases/debt service issuances, and impact fees. Growth related improvements will be funded by impact fees.

Costs of all capital improvements and equipment acquisitions are distributed over 5 years as follows:

Year 1 - FY2016/17	22,029,755
Year 2 - FY2017/18	11,820,149
Year 3 - FY2018/19	6,267,660
Year 4 - FY2019/20	8,327,796
Year 5 - FY2020/21	5,619,652
<hr/>	
5 Year Total	54,065,012

All items scheduled for Year 1 are included in the proposed FY16'17 operating budget presented to the City Commission for consideration.

<b>Description:</b>							
<p>The parking lot on the southwest southeast corner of Stuart Ave. and Wetmore St. needs some clean-up and rehabilitation as part of the effort to beautify the community. The concrete pavement of the lot is in good shape except for weeds growing up in the joints. Striping of parking spaces and installation of bumper stops are proposed. The sidewalks along the street are broken up to the point of being unusable. They need to be replaced.</p>

<b>Description:</b>		<p>This would complete a project which began during the 2011-12 fiscal year. This Point-to-Multipoint network would connect all of the remote City facilities via a high bandwidth wireless network backbone. There would be some minor return on the investment with this project as we would cancel any recurring internet costs to these facilities and could add additional network functionality to the facilities that we do not have now, due to the slow through put of WAN links.</p>

Description:							
<p>Purchase and installation VMWare / Server upgrades for Police Headquarters. VMware is a technology that allows multiple servers to share the same physical hardware. This project will enable us to consolidate hardware resources resulting in lower server upgrade and operating costs in the future. One other important feature of VMware is that it creates snapshots of server configurations that can be restored very quickly in a disaster scenario.</p>

<b>Description:</b>	<p>The Eastern Aircraft Apron represents a significant resource to the airport and itinerant traffic. In the future, once landside access and parking is provided to this facility, its adjacent land will be poised for development. By expanding the apron and constructing a taxivay, the existing East Aircraft apron and FBO apron can be connected, thereby increasing the overall utility of each.</p>

**Description:**

As a means to better support operations by the growing number of large and complex aircraft being experienced , a runway extension of at least 1,401 feet is highly recommended in the short-term development period. Furthermore, strengthening of the runway should also occur to bring its operational strength index to near 50,000 single wheel load. Additionally, this project would include an in-kind extension of taxiway A, the extension of LED medium intensity runway lights, the remarking of runway 6/24 to include a displaced threshold at the runway 24 end, and distance remaining signs along the runway shoulders.15/16: Rehabilitate runway 6/24; Update the environmental assessment.16/17: Extend 06/24; 17/18: Rehabilitate taxiway alpha east.

<p>FY:16/17: Lighting installation on Basketball courts (\$46,500), Dugout replacements (\$40,000) and Basketball court resurfacing (\$40,000). The field, tennis, and basketball court lighting has been severely damaged for a number of years and is only partially functioning. A portion of the lights are actually missing and need to be re-installed. The existing dugouts at the NW complex are in disrepair and should be replaced with modern low maintenance dugouts. The foundations of the dugouts have shifted substantially over the years, causing the block walls to severely fracture. These block dugouts need to be removed, new foundations poured, and modern chain-link style dugouts should be installed. The basketball court has many fractures and the lines are in need of painting. A simple overlay and new paint is all that is required to rehab the court. The lighting will be phased in beginning with the basketball court, then the tennis courts, then the</p>

Construction of Large Gazebo/Pavilion in Lake Wailes Park contingent upon the location designation of a Lake Wailes Park Master Plan. Currently, only one small covered picnic shelter exists within the park. The addition of a larger shelter would provide an additional shade structure for residents visiting the park and could also be used as an entertainment facility during special events or rentals.

Filed Lighting expansion:.. Only 37.5% (approximately) of the necessary field lighting was installed when the complex was constructed. As a result, the majority of the complex is not usable after daylight hours. The fields that are currently lit require much more maintenance as they are overused due the availability of the lights. This next phase of light will be strategically installed in the center of the complex in an effort to light as many of the fields as possible, maximizing the dollars spent. This complex facilitates recreation for approximately 600 children annually. Parking Lot and ADA parking installation: 33,000.

<b>Description:</b>	<p>Hydro tank replacement for tank at plant and to make the VFD's and old control panel compatible. VFD's for pump #1 are still on soft start. The soft start allows the pump drive unit to slow start instead of making the pumps turn on instantly causing a jerking motion of the pumps. The VFD's (Variable Frequency Drive) provides and maintains a steady speed for pumping.- Engineering will be performed to determine what additional upgrades are needed to replace the additional storage tank that had been slated. Carry forward from 15'16 \$40,000.</p>
