BACKGROUND

RECOMMENDATION

Staff recommends the City Commission consider taking the following action:

2. Authorize the Mayor to execute the appropriate documents, on the City's behalf.

BACKGROUND

The Commission, at its December 4, 2018 city commission meeting approved submitting an application and signing of the loan agreement to the state revolving loan fund program. The City had two water projects that made up loan application DW531301 for a total of \$4,618,811. These two projects were the construction of an additional ground storage tank at Water Treatment Plant #3, which is located at 1050 5th Street North and water main replacement of approximately 14,000 feet of 6"-8" galvanize water main, located in various locations in the city.

The total amount awarded is reduced by \$1,822,747.00, due to bids for both projects came in lower than anticipated. This reduced the total amount awarded to \$2,796,064.00. 8. Lift Station #1 Diesel Pump Purchase

[Begin Agenda Memo]

SYNOPSIS: Staff is recommending the commission approve the expenditure of funds in the amount of \$54,579.00 for the purchase of a diesel pump to be installed at lift station 1 (LS#1).

STAFF RECOMMENDATION

Staff recommends the City Commission consider taking the following action:

1. Approve the expenditure of funds for \$54,579.00 for the purchase of a diesel utilizing State Contract #FSA20-EQU18.0.

BACKGROUND

The city of Lake Wales proposes to install a bypass pump at a critical need lift station located at 166 1/2 Twin Lakes Boulevard (LS#1). The city of Lake Wales have already received a quote from a sole-source vendor (Thompson Pump) utilizing State Contract # FSA20-EQU18.0. During significant hurricane, power is oftentimes lost to utility assets in the affected region. For example, a storm as large as Hurricane Irma, even areas that were not directly impacted from the eyewall of the storm lost power due to sustained winds throughout the state. In Polk County during Irma, over 80% of the county lost power for sustained amounts of time. Power was not restored to the entire county for over a week after the Hurricane struck. Since Hurricane Irma impacted the entire state from the Keys through the panhandle, power restoration crews were stretched thin and unable to restore service to the lift station for a significant amount of time. Lake Wales was among the utilities that did not recover power quickly and had the majority of its lift stations go down as a result. All the water treatment plants have generators onsite. Therefore, they continued to supply water to the community, which in turn led to the community filling the lift stations with waste. The City of Lake Wales has 39 lift stations, but only ten have permanently mounted generators. The city of Lake Wales has a small number of portable generators, but since the storm was so widespread, staff had to maneuver those generators between all of the lift stations that do not have a stand-by generator. The purpose of this project is to provide permanent protection for the lift station during future storm or hazard events. As previously stated, this particular lift station is deemed critical infrastructure due to the source of its inflow and it cannot afford to go offline. Since loss of the lift station would result in an overflow and contamination of the surrounding area and groundwater, continued operation of the lift station is critical to the community.

Staff is recommending the City Commission authorize the expenditure of funds in the amount of \$54,579 for the purchase of a diesel pump to be installed at LS#1.

OTHER OPTION

The risks to the environment and community would remain in the event of a storm or hazard event.

FISCAL IMPACT

\$150,000 is budgeted in the Wastewater Division's FY '20-'21 Capital Improvements Plan Budget for this purpose. Funding source for this activity is the utilities operating revenue.

[End Agenda Memo]

Sarah Kirkland, Utilities Director, reviewed this item.

Commissioner Howell asked if this is the only diesel pump we have. Ms. Kirkland said no we have several. We have portables to take to lift stations for power outages. As Lift Station #1 is one of our main larger stations we want something there permanently so it is running all the time.

9. ORDINANCE 2021-11, 2nd Reading And Public Hearing

[Begin Agenda Memo]

SYNOPSIS: The City Commission will consider Ordinance 2021-11 amending the Lake Wales Code of Ordinances, Chapter 21, Section 21-27. – Connection to Sewer System and Section 21- 71 Connection to Water System.

RECOMMENDATION

Staff recommends that the City Commission approve the following action:

1. Adopt Ordinance 2021-11 after second reading and public hearing.

BACKGROUND

Construction is on the rise and the City limits continue to expand as the Commission approves requests for annexations. This amendment is necessary to ensure that developers connect to the City's utilities system. Current provisions call for connection to be made if public utilities are within a ¼ mile, however, this has caused the potential for inside City limit residential developments to develop without public access. Due to the minimal distance requirement, development continues to prosper and the possibility for septic tank installations increase placing the cost of sewer maintenance on the homeowner. Requiring land developers to connect to the sewer system enables the City to expand its sewer system and make public access sewer available to new development and existing water only customers.

In an effort to be consistent with the distance requirement for connecting to the public utility system staff has elected to amend the distance requirement for connection to the water system. Distance for both water and sewer connection availability will now reflect one mile (five thousand two hundred and eighty (5,280) feet) of an existing public utility.

Staff recommends the commission approve Ordinance 2021-11 an ordinance of the City of Lake Wales, Polk County, Florida, amending Lake Wales code of ordinances Chapter 21 Utilities, Section 21-27 and 21-71 amending the Connection to Sewer System and Connection to Water System; providing for severability; providing for an effective date.

The City Commission approved Ordinance 2021-11 after first reading on June 1, 2021.

FISCAL IMPACT

No fiscal impact. The land developer will incur the cost of extending the sewer system.

OTHER OPTIONS

Do not approve Ordinance 2021-11. The city would continue to expand and the number of septic systems within our city limits will continue to increase posing a hazard to our precious water source.

[End Agenda Memo]

James Slaton, City Manager, reviewed this item.

10. Financial Services For Federal Grants

[Begin Agenda Memo]

SYNOPSIS: The City Commission will consider entering into an agreement with Government Services Group, Inc. (GSG) for Financial Services for Federal Grants.

RECOMMENDATION

It is recommended that the City Commission to take the following action(s):

1. Approve the agreement with Government Services Group, Inc.
2. Authorize the City Manager to execute the necessary documents on behalf of the City.

BACKGROUND

The American Rescue Plan (ARP) Act of 2021 was signed into law on March 11, 2021. As a unit of government with a population under 50,000 residents, the City of Lake Wales ("City") qualified to receive an allocation of the Coronavirus State and Local Fiscal Recovery Fund ("CSLFRF") monies under the ARP Act of 2021.

The ARP Act specifically requires that payments from the CSLFRF may only be used as follows:

- (A) to respond to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19) or its negative economic impacts, including assistance to households, small businesses, and non-profits, or aid to impacted industries such as tourism, travel, and hospitality;
- (B) to respond to workers performing essential work during the COVID-19 public health emergency by providing premium pay to eligible workers of the City that are performing such essential work, or by providing grants to eligible employers that have eligible workers who perform essential work;
- (C) for the provision of government services to the extent of the reduction in revenue of such city due to the COVID-19 public health emergency relative to revenues collected in the most recent full fiscal year of the City, prior to the emergency; or
- (D) to make necessary investments in water, sewer, or broadband infrastructure.

As a recipient of ARP Act of 2021 funding, the City is solely responsible for the reimbursement of all monies including those allocated to subrecipients. Should the U.S. Inspector General determine during an audit procedure that any reimbursements, whether by the City or a subrecipient, fail to conform to U.S. Treasury guidelines, the funds identified to be in violation of the ARP Act of 2021 becomes a debt of the City.

Approval of this agreement will authorize Government Services Group, Inc. to perform CARES Act eligibility determination, project management, appeals preparation, grant management, financial recovery, financial and project progress reporting, insurance reconciliation, grant monitoring and compliance, grant closure, and audit preparation, defense, and appeals.

OTHER OPTIONS

Commission can choose not to approve contract with Government Services Group, Inc.

FISCAL IMPACT

Except as noted below, this lump sum fee includes reimbursement for all out-of-pocket expenses. Any on-site meetings may be arranged at our standard hourly rates provided below. All expenses related to additional meetings will be billed in accordance with section 112.061, Florida Statutes. Mayor Fultz asked about the status of the AWS study. Ms. Kirkland gave an update. The engineer sent us a draft that is currently under review. This will be on the next commission workshop with the engineer available for questions.
